## Note and Comment

Telegram from the front:  
"Send two million pairs of pa-  
jamas. The Germans are about  
to retire."

After women get a little more  
political power it should not be  
surprising if they abolished a  
few of the men. There are too  
men in the world anyway. The  
women claim they can get along  
with a very few men. They  
are not nearly as important as  
they think they are.

The Farmers' Co-Operative  
Elevator Company promises to  
have a very large business this  
year. They already have 103  
elevators with capacities rang-  
ing from 35,000 to 100,000 bus.

This year they will build be-  
tween forty and fifty more el-  
evators, with capacities from  
35,000 to 60,000. These elevators  
cover the whole country and  
are to be found on all the rail-  
way lines in the West.

A considerable amount of  
road work needs to be done, in  
and around Monitor. This has  
been taken up with the govern-  
ment and they have sent men  
down to look over the situation.

A road will also be opened  
from the elevators to the tank.

"Public notice is given that the fol-  
lowing by-law, copies of which may be  
seen at the Post Office, Printing Office  
and at the Jail, and further that unless  
within 30 days of the publication of this  
notice at least 10 resident electors of  
the village petition the council to sub-  
mit such by-law to a vote of the resi-  
dent electors of the village the council  
will proceed to pass same."

## BY-LAW No. 19

A By-Law of the Village of  
Monitor, to Restrain and Regu-  
late the Running at Large or  
Trespassing of Animals.

The Council of the Village of Mon-  
itor enacts as follows:

In this By-Law, unless the context  
otherwise requires:

(a) "Animal" means any head of  
cattle, horse, sheep, goat, swine or  
poultry.

(b) "Cattle" means any bull, cow,  
or heifer, steer or calf.

(c) "Horse" means any horse, mare,  
gelding, colt, filly, ass or mule.

(d) "Sheep" means any ram, ewe,  
wether or lamb.

(e) "At large" means without being  
under the control of the owner or pos-  
sessor, either by being securely tethered  
or under direct or continual charge  
of a herder or by confinement within  
any building, fence or other enclosure.

2. It shall not be lawful to allow  
the following animals to run at large  
at any time of the year within the  
limits of the Village of Monitor:

3. It shall not be lawful to allow  
any geese or poultry to run at large  
within the limits of the said Village  
from the 1st day of May to the 15th  
day of September, both inclusive, in  
each year.

4. Except as prescribed or restrict-  
ed by law or by this by-law or by-laws  
of the Village, it shall be lawful for  
animals to run at large within said  
Village and no person shall be liable  
to an action for trespass in respect of  
any animal at large under the provi-  
sions of this by-law, unless the lands  
or premises trespassed upon are en-  
closed by a lawful fence.

5. Any animal found at large or  
trespassing upon any lands or prem-  
ises enclosed by a lawful fence, con-  
trary to the provisions of this by-law,  
shall be liable to be impounded and  
sold according to the provisions of this  
by-law unless the damages, expenses  
and fees be sooner paid.

6. Nothing in this by-law shall pre-  
vent any person from waiving his  
rights under this by-law and taking  
action to recover compensation in any  
court of competent jurisdiction from  
any person owning or having the cus-  
tody of any animal through which  
damage has been caused, contrary to  
the provisions of this by-law.

7. There shall be established in the  
Village a public pound or pounds with  
a poundkeeper for each whose re-  
muneration shall be such fees and  
charges as he shall be entitled to un-  
der the provisions of this by-law.

8. The said pound shall be for the  
impounding of animals at large or tres-  
passing contrary to the provisions of  
this or any other by-law of the Vil-  
lage, which said impounding may be  
done by any person other than the  
poundkeeper.

9. Whenever any animal is im-  
pounded it shall be the duty of the  
poundkeeper to retain same until the  
owner or owners thereof shall have  
paid the fees and damages, if any,  
claimed for the trespass.

10. Whenever any animal has been  
confined or detained by any person  
under the provisions of this by-law for  
the purpose of impounding the same,  
if the owner of the animal or some  
person in his behalf pays or tenders  
to the person seizing or having charge  
of such animal before the same has  
been actually impounded, the charge  
for which the said animal has then be-  
come liable, under this by-law, the  
person having charge of such animal  
shall forthwith deliver up the same to  
the owner or to the person tendering  
the said charges on his behalf.

11. Nothing contained in this by-  
law shall deprive the owner of any  
animal impounded of any action, remedy  
or right that he may have at com-  
mon law or otherwise, by reason of the  
same being unlawfully seized, dis-  
trained or impounded.

12. Any person who leaves open  
any gate or lets down any bars or  
makes a gap in any fence for the pur-  
pose of permitting any animal to tres-  
pass, or who otherwise causes any  
animal to trespass, shall be guilty of an  
infraction of this by-law.

13. Any person claiming any dam-  
age for trespass by any animal im-  
pounded may, at the time of impound-  
ing of such animal, deliver to the  
poundkeeper a statement in writing,  
showing the nature and amount of  
his demand, and any person failing to  
deliver such statement at such time  
shall have no recourse to the provi-  
sions of this by-law as to the collec-  
tion of damages.

(b) Upon the receipt of such state-  
ment the poundkeeper shall, if the  
owner of the animal be unknown to  
him, apply to the Reeve or to any of  
the Councillors of the Village, or to  
the nearest justice of the peace, who  
is hereby authorized and required to  
summon three disinterested persons  
of the Village as appraisers such three  
appraisers or any two of them shall,  
within twenty-four hours after being  
summoned, as aforesaid, view the  
ground on which the animal or ani-  
mals were found doing the damage  
and appraise the damage committed,  
and the determination of a majority

of the said appraisers shall be conclu-  
sive as to such claim and the amount  
thereof, and they shall within twenty-  
four hours after having made the view  
give in writing to the poundkeeper a  
statement of the amount of the dam-  
ages assessed by them and said  
amount shall be the amount to be  
collected from the owner or to be re-  
tained by the poundkeeper from the  
sale of the animal or animals as ap-  
praised damages.

14. If the owner of any impounded  
animal is known to the poundkeeper,  
as the owner of such animal, the  
poundkeeper shall forthwith deliver at  
or mail by registered post to the ad-  
dress of such owner a notice in the fol-  
lowing form:

"Notice is hereby given that (des-  
cription of animal impounded giving  
registered brand, if any, marks and  
points) was impounded in the pound  
kept by the undersigned on the (des-  
cription of place where pound is kept)  
on the... day of... A.D. 19...  
Given under my hand at... this...  
day of... A.D. 19..."

(Signature of Poundkeeper)  
To.....

(If a claim for damages shall have  
been made the poundkeeper shall em-  
body in the said notice the following  
or to the like effect): "Notice is also  
given that a claim for damages to the  
amount of... has been made by  
... and that if you wish to  
have this claim appraised you are re-  
quired, within 3 days from the receipt  
of this notice, to notify me to that  
effect, otherwise the claim will be tak-  
en to be admitted."

(If the owner shall, within 3 days  
from the receipt of this notice, inform  
the poundkeeper of this desire to have  
appraisers appointed, the poundkeeper  
shall forthwith apply for the appoint-  
ment of appraisers as in section 13 hereof and there-  
after the provisions of section 13, as to ap-  
pointment, view and award, shall govern.

The appraisers shall be allowed the fees  
set out in sections 13 hereof. If the amount  
of the appraised damages equals or exceeds  
the amount claimed by the claimant then  
the amount of the appraisers fees shall be  
paid by the owner or retained from the  
proceeds of the sale of the animal or ani-  
mals, but if the amount of appraised dam-  
ages shall be less than the amount claimed  
by the claimant then the appraisers' fees  
shall be paid by the claimant or retained  
out of the amount due him as appraised  
damages.)

(2) If the owner shall not within 3 days  
from the receipt of the notice that a claim  
of damages has been made, inform the  
poundkeeper of his desire to have appraisers  
appointed, the claim and the amount there-  
of will be taken to be admitted, and there-  
fore shall be treated as appraised damages.

(3) In case such owner is not known or  
such owner or person notified shall not  
within 10 days after the posting or deliv-  
ery of the notice referred to in subsection  
(1) hereof appear at the pound and release  
the animal so impounded by the payment  
of the appraised claim for damages, the  
poundkeeper's fees and mileage and allow-  
ance, and the appraisers' fees, where the  
same are due under this by-law, the pound-  
keeper shall cause to be inserted once each  
week for two consecutive weeks in some  
newspaper circulated in the village a no-  
tice in the following form:

"Notice is hereby given that (des-  
cription of animal impounded giving regis-  
tered brand, if any, marks and points) was  
impounded in the pound kept by the under-  
signed (description of place where pound  
is located) the... day of... A.D. 19...  
Given under my hand at... this... day of...  
A.D. 19... Signature of Poundkeeper.

(4) Every poundkeeper shall, without  
charge, in addition to any copies of any  
notice which he may be required to post  
or deliver, post a copy of every such notice  
in a conspicuous place at his pound and in  
the nearest post office, and shall keep and  
maintain such notice at his pound during  
the whole of such time such notice may re-  
fer to.

15. If any poundkeeper impounds or  
seizes, or invites, or employs any person  
to impound any animal in the village, un-  
less such animal was strayed or was tres-  
passing upon the poundkeeper's own land,  
he shall in addition to any civil liability  
which he may incur by reason thereof be  
guilty of an offence and liable to summary  
conviction to a penalty not exceeding \$100.

(2) Every poundkeeper shall keep the  
pound to which he is appointed, clean and  
in good repair and shall supply the animals  
impounded therein with sufficient and  
wholesome sustenance, and provide for

## Saved by British Navy

We know that the Entente navy was and is the one thing that saves us today from any possibility that Germany at present may try to do what she tried to bring Japan and Mexico into doing. Every instant of preservation, of national safety, demands an alliance with the Entente, if we are to be safe from such dangers, hereafter, and it is the logical course now as we are best to cope with the submarine war on our shipping and our citizens.—Boston Advertiser.

Whether the corn be of old or new growth, it must yield to Holloway's Corn Cure, the simplest and best cure offered to the public.

## Luring on to Destruction

There is one reason to believe that more than one of our lost liners have met their doom by hastening to answer the bogus S.O.S. of the submarine which lay in wait for them. Now the survivors of a French destroyer torpedoed in the Mediterranean reports that, while struggling in the water in the darkness of the night, they were brought within effective range of the submarine's guns by the enemy shouting in good French, "The French will conquer! Could devility go further?"—Glasgow Herald.

## Views of Marriage

Spinster Whose Prejudices Were of a Most Decided Kind

A Miss Graham who died while engaged in war work at Malta, and left legacies of \$50,000, held strange views on the marriage question. On the ground that her views indicated an unhealthy and unsound mind at the time when she prepared her will a relative opposed probate.

In the evidence adduced it was proved that the called her a former will under which her relative would have received a substantial legacy and some valuable property because she had degraded herself by entering the abhorrent state of matrimony. The deceased lady even assailed the Archbishop of York for his marriage views, and called him "filthy minded."

The point at issue was submitted to a jury, who held that strange marriage views did not prove a state of insanity, with which the judge concurred. At the same time the foreman expressed the regret that the deceased had had no experience of matrimony, with which she might have revised her verdict.

Wise and experienced mothers know when their children are troubled with worms and lose no time in applying Miller's Worm Powders, the most effective vermifuge that can be used. It is absolute in clearing the system of worms and restoring those healthy conditions without which there can be no comfort for the child, or hope of robust growth. It is the most trustworthy of worm exterminators.

## The Safest Course

Is there no way of stopping these cyclones? asked a traveler who was relating his experiences in the Far West.

No, replied the narrator. The best way is to go along with them.

Systematic Way to Increase Crops in the Dominion

The Canadian government is adopting a very systematic way to increase the crops of the Dominion. An official commission, composed of professors of different universities, has been appointed to visit the high schools and colleges and enlist boys for agricultural work during the summer months. Attention will be given to the physical ability of the boys and they will sign, with the consent of their parents, for six months' service on the farms. A record will be kept of their work and efficiency, which will be credited to them the same as if it were in the regular classes in the schools and colleges. This looks like a pretty good scheme, not only to get intelligent farm workers, but for the real advantage of the boys. It was tried in a small way last year and the result was that the boys who worked on the farms outstripped in their studies those who remained in the schools. That is the same sort of record that has been made in some manual training schools where the boys who spent half of their time at work and the other half at their studies, took nearly all the scholastic prizes in the interschool contests, while they swept the platter almost clean in the athletic fields. It would be a scheme invented that would put the large groups of boys who idle away their time in the pool halls and on the streets out on the farms during the summer months. It would be of incalculable advantage to them and their country.—Omaha World-Herald.

Clerk—Let me show you our latest machines. We have a motor car now that can climb any hill on earth.  
Chauffeur—That's nothing. The last one you sold me tried to climb a tree.

He—I should really like to see myself as others see me, don't you know.  
She—You wouldn't give yourself a second glance.

## Foresters Wanted

Ottawa Calls for Drafts to Let Men Return to Other Units

The Militia Department is calling for several thousand more recruits for the Canadian Forestry Battalions overseas. These are now ten thousand men in the Forestry Battalions in England and France, under the command of Brig-General Alexander McDougall. Some five thousand of these were supplied by Canada, and the balance was drawn from overseas troops originally enlisted for other purposes. To allow these men to return to their original units forestry drafts are wanted from Canada. The age limit for forestry recruits is 48 years, and men of 4 ft. 11 inches in height are accepted. Recruiting depots have been opened in all the lumbering centres of Canada.

## Democracy Against Autocracy

Autocracy has broken down in Russia. It is doomed in Germany, as the avowals of the chancellor and the secretary for foreign affairs admit, even if the throne and dynasty should survive. It cannot survive in Austria if it shall fall in Germany. This is fast showing itself, as it was from the beginning in its real character a war of popular government against imperialism. On the side of the allies it is a war that "government of the people and by the people and for the people shall not perish from the earth."—Philadelphia Record.

## Just The One

The children happened to be present when mother received an applicant for the position of nurse-nanny. "Why were you discharged from your last place?" asked the mother, when she had ascertained, after much ingenuity, that the applicant had not voluntarily left that place.

"Well, ma'am," said the girl, very frankly, "to tell the truth, I sometimes forgot to wash the children, ma'am."

Whereupon there came from the children in chorus, "Oh, mother, please engage her!"—Harper's Magazine.

## German Ability in the War

One Is Not Tempted to Envy the Germans for Their Cleverness

There has been far too much laudation of German ability in this war. When one considers the vast amount of forethought given by the Germans to the war and the mobilization of a period of forty years of the best brains of the country toward the one end of military success and then surveys the results achieved one is not tempted to envy the Germans for their cleverness, but rather to think how much better the French, the British and the Americans would have done the job if they had given their mind to it. The Germans in international politics remind us of the dull technology who, having worked out with immense industry an enormous sum in multiplication and division quite correctly to thirty places of decimal, then, at the end to produce a wildly incorrect result by pointing his decimals two or three places out.—H. Sidbotham in Atlantic Monthly.

When a man is dressed in a little brief authority he is even more conspicuous than a woman in the present style of abbreviated skirt.

## Germans Buy British War Loan

## British War Loan

Some Germans have a strange way of showing their confidence in the victory that is to settle the war in their favor. A number of Germans, well-known to "people in" England, knowing that they could not purchase certificates in the recent war loan, set the wheels of negotiation going through friends in neutral nations and bought largely in this way. The fact has just come to the knowledge of the London Stock Exchange and now it is a question with the broker, who innocently arranged it whether he can in any way cancel the deal.

## Well-Known Farmer

## Gives His Evidence

SAYS DODD'S KIDNEY PILLS CURED HIM OF GRAVEL

Dr. William Wood of Hadlington, Ont., is Added to Long List of Cures by Dr. J. C. Dodd's Kidney Pills. Hadlington, Ont., (Special)—Mr. William Wood, a well-known farmer living near here, is shouting the praises of Dodd's Kidney Pills. He claims they cured him of two of the most painful and dangerous forms of kidney trouble, bladder trouble and gravel.

"Yes, I was troubled with gravel and bladder trouble," Mr. Wood said when asked about his cure. "But since I took four boxes of Dodd's Kidney Pills my troubles are gone. I also had heart flutterings and shortness of breath. There were flashes of lights and specks before my eyes and I was very nervous. All these troubles have gone, too, since I used Dodd's Kidney Pills."

Others in this neighborhood have used Dodd's Kidney Pills and found that they are the greatest of all remedies for kidney troubles of any kind. Dodd's Kidney Pills are specialists. They cure sick kidneys and that is all they claim to cure. The reason they are given credit for curing rheumatism, lumbago, dropsy, diabetes and Bright's disease is that all of these diseases are caused by sick kidneys.

## Using Grass to Make Paper With

Although several of the largest paper mills in England have been forced to shut down because the government stopped the importation of pulpwood, manufacturers there have managed to keep going by utilizing grass which they obtain from Scotland, the Fenlands and India.

Printed on paper and notepaper is being made from grass mixed with other materials. The cheapest fibre is obtained from rags which are no longer exported. Rag cuttings are now worth \$140 a ton, which is still below the cost of wood pulp, now selling for \$150 a ton. It was \$40 a ton before the war.

## INFANTS' OFFICIAL GUARDIAN

The Province of Alberta now has an Official Guardian. The Lieutenant Governor in Council has appointed Arthur G. Browning, K. C., Deputy Attorney General, of Edmonton, to be Official Guardian under the Act, with the powers and duties therein specified. The Government deemed legislation advisable to protect the property of infants as well as, and in addition to, the protection afforded to their persons under the Children's Protection Act. The Official Guardian Act, 1917, (c.19) enables this to be done. Section 4 provides as follows:

- The Official Guardian may
- Act as guardian ad litem of infants;
  - Act in the administration of estates upon order of the Court;
  - Act as custodian of property of missing persons, convicts or deceased persons;
  - Act as judicial trustee of the estate of any deceased person upon the order of the Court;
  - Act as the guardian of any infant made ward of the Court under the Children's Protection Act, being Chapter 12 of the Statutes of 1909;
  - Act in such other capacity and do such other acts, matters, and things, as an official guardian is authorized or required to do by the Rules of Court or by order of Judge or by Order of the Lieutenant Governor in Council or under the Act.

The powers are very wide in their application and in order that every assistance possible be given to the Official Guardian to carry them out, the Act provides he shall be served with Notice of every Application to any Court in any manner affecting the infant or his estate.

Full particulars must be given showing the object of the Application and the effect it will have on the estate of the infant.

Executors and administrators can be compelled to pass their accounts as required by law.

Trust estates can be audited and dealings therewith investigated. Actions and proceedings where the infant is a party can be conducted by the Official Guardian on behalf of the infant, and generally he is authorized to take all such proceedings as may be deemed necessary for the protection of the estate of the infant. The Act does not in any way interfere with the rights of any parties at present or in the future, who are acting legally as guardian of any infant, but in cases where the infant's property seems likely to be endangered, the Official Guardian will be able to intervene. Orders under the Act can be enforced by attachment.

He will at all times be available for consultations and advice where the estate of any infant is affected.

All correspondence should be addressed to
